***Examiner's Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: While "Automatic generation of invariants and intermediate assertions" hereafter referred to as *Bjorner et al.*

Art Unit: 2123

teaches assertion graphs, see Figure 18 on page 81, and *Jain* teaches verification of symbolic trajectory evaluation, **none of the references taken alone or in combination with the prior art of record disclose**, initializing a symbolic simulation relation for an assertion graph on a first symbolic lattice domain, specifically including;

(claim 4) “initialize a symbolic simulation relation for an assertion graph on a first symbolic lattice domain.~ wherein the assertion graph on the first symbolic lattice domain is configurable to express a justification property to verify by computing the symbolic simulation relation”,

(claim 8) “initialize a symbolic simulation relation for an assertion graph on a first symbolic lattice domain; and compute the symbolic simulation relation for the assertion graph on the first symbolic lattice domain to verify the assertion graph according to a normal satisfiability criteria”,

(claim 28) “means for initializing a symbolic simulation relation for an assertion graph on a first symbolic lattice domain, wherein the assertion graph on the first symbolic lattice domain is configured to express a justification property to verify through computing the symbolic simulation relation; means for computing the symbolic simulation relation for the assertion graph on the first symbolic lattice domain; and means for checking the symbolic simulation relation to verify a plurality of properties expressed by a plurality of corresponding assertion graph instances, having at least one assertion graph instance on a second lattice domain different from the first symbolic lattice domain”, **in combination with the remaining elements and features of the claimed invention.** It is for these reasons that Applicants' invention defines over the prior art of record.

Art Unit: 2123

**3.1** As regards dependent claims 5 and 31-40, they are allowed for at least the reason that they depend upon an allowed base claim.
